

**We are seeking a full time
Internal Medicine Physician
to join our health care team!**

Position Available Spring 2011
Practicing in both Washington & Idaho State

Highlights of working at Palouse Medical...

- **Competitive Salary & Benefits**

- Signing bonus and guaranteed first year salary
- Paid malpractice insurance
- Two weeks vacation/two weeks CME and \$2,000 CME allotments for first year
- Paid moving expenses
- Potential for partnership after first year
- 401-K / Profit Sharing Plan after one year of employment

- **Work at multispecialty practice with an outstanding reputation for patient care!**

- All our physicians are board certified & mid-level health care providers maintain highest national certifications.
- Our team is comprised of: 5 internists, 3 family medicine/OB physicians, 2 registered nurse practitioners, 1 family/urgent care physician & 1 physician assistant-certified.

- **Work 4 or 4 1/2 days a week**

- Provide adult primary care and clinical services.
- Opportunity to follow own inpatients or check out to hospitalist during inpatient stays.
- Shared weekend call schedule is 1:6

- **Offices are conveniently located next to BOTH local hospital sites**

- In both communities, we are located closer to the hospitals than any other medical office.
- We work cooperatively and have great working relationships with Pullman Regional Hospital in Pullman, Washington & Gritman Medical Center in Moscow, Idaho.

- **We provide MANY in-house procedures!**

- Many of our providers are skilled in individual subspecialties.
- Should you desire, you will have the opportunity to continue exploring your specific academic and professional service interests.

- **Palouse Medical offers many in-house diagnostic services and technologies**

This includes diagnostic equipment, laboratory & imaging services.

- **We have been operating with a fully integrated EMR system since 2007**

- This includes our practice management, medical records and laboratory information system.
- We are interfaced with local hospitals to get timely results from procedures performed at the hospitals.

- **Mentor, Precept & Teach Students**

- Many of our providers mentor students pursuing careers in the medical field from universities around the nation.
- We teach WWAMI medical students in collaboration with Washington State University and the University of Washington.
- As of Spring 2011, we now serve as a clerkship rotation for 3rd year students at the University of Washington's medical school.

Internal Medicine Physician Opportunity
AVAILABLE SPRING 2011

A LITTLE ABOUT US...

We are nestled among the rolling hills of the Palouse, with our offices centrally located in the beautiful communities of Pullman, Washington and Moscow, Idaho! We are dedicated to providing the highest quality healthcare available to our patients. Our goal is to partner with each of our patients to achieve their personal health and wellness goals.

ABOUT OUR PRACTICE...

***Palouse Medical** emerged from the determination and combined vision of four separate, locally owned medical practices. It was their desire to provide a more comprehensive health care package and better serve their patients. Having earned respect and trust from patients and the community throughout the years, these medical offices continued their discussions and merged in 1998 to create the multispecialty practice that we know today.*

Now we have 2 convenient locations, ReadyCare (a busy, walk-in minor care clinic) and offer both primary and specialty care services spanning the fields of Family and Internal Medicine.

Despite our growth over the years, we never lose sight of the reason we are in healthcare. We enjoy the “one-on-one” patient provider connection that is unique to this field and that only communities like ours can offer.

*From pre-natal to senior care, and everything in between, we live up to our claim...
Palouse Medical is “**your health partner!**”*

Don't just take our word for it...

Bloomberg's Business Week's 5th Annual report detailing the "**Best Family Friendly & Affordable Locations To Live**" ranks and reviews data from 5,418 locations nationwide! To be considered, locations must have populations larger than the state median, but no larger than 50,000 and the median income is within 20% of the state's median. The rankings put the most weight on school performance and the number of schools accessible, crime statistics, and cost of living. Other factors considered included: job growth, air quality, ethnic diversity, and access to recreational amenities (within the county), such as parks, zoos, theaters, and museums.

Pullman and Moscow both won The Best Places to Raise Your Kids 2011!!!

"**Pullman** is in the southeastern part of Washington state on the Idaho border, a farming community in an area known as the Palouse. The Palouse wheat fields stretch for miles, broken up only by such geographic marvels as the Snake River, Hells Canyon, and the Cascade mountain range. In addition to its natural beauty, Pullman is a seat of learning and home to Washington State University. Pullman High School is highly regarded, and its WASL scores average among the highest in the state."

"**Moscow**, a city in northern Idaho, is home to the University of Idaho—the largest employer in the area. This college town belongs to Moscow School District #281, which has four elementary schools, one junior high, one high school, an alternative high school, and one charter school. The area's schools, as measured by Onboard Informatics, perform better than the state average. Outdoor activities such as camping, mountain biking, snowmobiling, fishing, and skiing are popular in the area."

We Have Room For YOU!!!

We would love to discuss the opportunities available here at Palouse Medical and introduce you to the beautiful communities we live in, serve, and love!

We are happy to answer any of your questions and provide you with more detailed information.

Thank you for your interest!
